

I am writing in regard to the LPFM stations. I am a user and supporter in a national translator, K-LOVE. It is the only listener supported, Christian station in my city and I love the service they provide. If they were off the air I would not be able to get this type of radio station locally. It simply would not exist in SLC. I think this type of station serves the public interest by allowing the option to listen to Christian-based music, news, and commentary. Thank you for considering my opinion when you make your decision on this matter.
